8654 Hinged Security Screen Door Lock

The Lockwood 8654 Hinge Security Door Lock has been designed in Australia and manufactured to stringent quality specifications.

Features and Specifications

This high performance lock conforms to Australian Standard AS 4145.2 – 2008: Locksets and Hardware for Doors and Windows Part 2: Mechanical Locksets for Doors and Windows in Buildings, to Level S6, D7 and C6. Successfully tested on security screen doors in accordance with Australian Standard AS 5039 - 2008: Security Screen Doors and Security Window Grilles and AS 5041-2003: Methods of Test.

- Suits left or right hand opening doors
- Stainless steel hookbolt for increased security
- Key locking from both sides
- Inside snib locking (with key override)
- Large ergonomically improved snib to assist with operation
- Stainless steel front end plates
- Self latching with stainless steel hook deadbolt for improved security performance
- Can only be locked when fully engaged with strike
- 3 point kits available for premium security
- When 3 point kit is fitted, snib activates/operates all 3 locking points
- Push on actuating bar suits above or below centreline applications
- Fits industry standard cut outs/door preparation
- Retrofits Whitco Tasman Mk2 and Mk3 Locks
- Zinc diecast lock mechanism and furniture
- Easy installation for both new and retrofit applications
- Accepts Lockwood Euro profile lazy cam cylinder
- Suit standard 20mm door thickness

Keying

- Use with Lockwood Euro profile lazy cam cylinder - with Kinetic Defence® and Anti-Drill
- 2 x 5 pin cylinder
- Can be keyed alike to other Lockwood C4 door and window products

Standard Finish

- Black Polyester Powdercoat

DualSelect®

- 2 stage key locking, offers safety and security for all occupants by giving a choice of selecting safety mode or secure mode when exiting the home
- Turning the key to the first selection engages the safety lock, this offers security from the outside whilst allowing occupants inside to safely exit using the internal lever and snib
- Turning the key to the second selection engages the secure lock, this provides internal and external security, and requires the key to unlock the door from inside and outside

Application

Single or multi point mortice hinge security door lock available in high strength (3 point) and standard versions.

Accessories

- High strength multi point kit

DualSelect®
Turn the key for safety mode. Turn the key further to select secure mode.

2 Keys Included
Can be keyed alike to other Lockwood door locks.

Kinetic Defence®
Bump and pick resistant.

Standard Strike (Zinc)

High Strength Strike (Stainless Steel)

Auxiliary Strike/3 Point (Stainless Steel)

Pneumatic Screen Door Closers

403 Pneumatic Screen Door Closer is suitable for right or left hand hinged screen doors or light internal doors weighing up to 21kg.

The Lockwood 403 Pneumatic Screen Door Closer replaces the old type air bleed screw found on other pneumatic closers, with a spring loaded bleed valve. This enables air to escape when under great force.

When a pneumatic closer normally closes, it builds up air pressure to a certain point and then stops suddenly causing what is called compression shock which places undue force on the closer and the hinges of the door itself.

With the 403's new spring valve, the air can escape, reducing this compression shock and giving a smoother closing operation.

The 403 screen door closer also has a large adjusting knob on the end so the home owner can adjust as required without the need of tools.

It has a detent, click feel, to give tactile feedback to the user and to maintain the desired setting longer.

A rod retaining clip is also included to ensure the closer rod is retained on the frame bracket.

Features and Specifications

403 Screen Door Closer

- Spring loaded bleed valve for smooth closing
- Closing speed easily hand adjustable
- Door hold-open feature
- Surface mounting
- Rapid air release function
- Automatic latch operation

Standard Finish

- Available in black polyester powdercoat

When it comes to safety it's primal, it's our survival, a basic human need. We want freedom to live, explore and rest without fear. To leave behind in safety our precious, cherished and most valuable things. And to come back to them exactly as we left them.

For as long as we have valuables, we will always need protection. Though the need for our products is driven by concerns, the Belief in our Brand is propelled by confidence. An unquestioned confidence in our ability to protect what is most important to you.

Our products provide peace of mind through strength, substance and style. Our reputation is forged in traditions, supreme workmanship, uncompromised values and above all our people. We are a trusted, tireless and vigilant guardian that protects families, households, trades and businesses.

Because if feeling safe is a basic human need, knowing you're safe is why Lockwood exists. For over 75 years, our guiding principle is and will always be: To take the worry out of protecting what is valuable to you.

Lockwood: *no worries*[®]

ASSA ABLOY

Lockwood is the leading brand in the Australian locking industry. With an established reputation for high quality products, this iconic brand provides a wide range of locking solutions to residential housing, commercial building and industrial application markets. Lockwood is supported by an extensive distribution and after-sales support network. Our customers include retailers, architects, trade and industrial personnel, locksmiths and security dealers.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.
